## How do i connect my lefun smart band to my iphone

Lefun Health is an app that communicates with the bracelet and shows the status of the wristbands such as exercise, sleep, and heart rate.Lefun Health是一款与手环通讯的app,可以展示运动、睡眠、心率等手环的状态。 I spent hours trying to connect and found this advice by googling "After an hour or more of frustration I finally was successful in connecting the wristband to my wife's phone. I removed any pairing in IOS that I had created in earlier attempts. Then in the Lefun Health app on the Health screen I went to the settings screen via the three horizontal bars list icon in top left. The next step was the key to success for me. I changed the display on the wristband to the one after the calories display. It looks like a magnifying glass and old mobile phone (search for phone?). With that displayed I returned to the app screen and selected Search device at the bottom of the list. The connection was almost instantaneous. I was then able to see the wristband info, save personal data and synch the device with app. It would have been helpful if the instruction sheet had included a picture of the proper display prior to the search process." Also, after you "search", a # will appear on the top of the screen (same MAC # that is on your watch), you must click on that # on the search screen to continue with syncing) After an hour or more of frustration I finally was successful in connecting the wristband to my wife's phone. I removed any pairing in IOS that I had created in earlier attempts. Then in the Lefun Health app on the Health screen I went to the settings screen via the three horizontal bars list icon in top left. The next step was the key to success for me. I changed the display on the wristband to the one after the calories display. It looks like a magnifying glass and old mobile phone (search for phone?). With that displayed I returned to the app screen and selected Search device at the bottom of the list. The connection was almost instantaneous. I was then able to see the wristband info, save personal data and synch the device with app.It would have been helpful if the instruction sheet had included a picture of the proper display prior to the search process. I bought this smart watch on Wish for about \$4, while yes, the instructions didn't specify how to charge it, I was able to find the information by a quick Google search. I've only had the watch for a day and I've really enjoyed it! I've been able to tailor it to my liking (changing it over to British standard so everything is in lbs etc). For \$4 I would say just getting the message and alerts is well worth it, plus being able to turn my wrist and see the time is nice (which of course you can do with any watch but hey, even some standard watches are more than \$4) but would I have purchased it for a higher price? Probably not. I haven't found anything wrong with it yet, but if I end up having trouble, I'll definitely edit my review! But I figured I'd write one while everything is going well to give this app a fair shot. It's pretty cool! The developer, wenzheng wang, indicated that the app's privacy practices may include handling of data as described below. For more information, see the developer's privacy policy. The developer does not collect any data from this app. Privacy practices may vary, for example, based on the features you use or your age. Learn More Developer Website App Support Privacy Policy How do I install Lefun health? Click the up right-hand corner and tap "Bluetooth Settings". Activate Bluetooth in your phone and search for One. Select LeFun One. When the Bluetooth pairing request window appears both on mobile phone and One, tap "Pair" on your phone screen and tap "Yes" on the One screen. How do you change the time on a Lefun smartwatch? Change the time on your watch If the screen is dim, tap it to wake up the watch. Swipe down from the top of the screen. Tap Settings . If you don't find it right away, swipe left. Tap System Date & time. Choose your time settings. Which app is used for m4 band? Step 1: Download the LEFUN HEALTH App For Android users: scan the QR code below,or search "LEFUN HEALTH" from Android Market, Google Market. How do you set up a smartwatch? How to Set Up a Smartwatch Connect the device to its included charger so that you start with a full battery. Download the appropriate app to connect your smartwatch with your phone. For example, on Android watches, download the Wear app from the Google Play Store. Connect the smartwatch to your phone via Bluetooth. How do I change the time on my fitness band? Steps to change time manually Go to setting. Tap on date and time. Turn off automatic time setting. Enter date and time manually. click on save. How do I set the time on my one button watch? One-button LED watches are super useful and simple to use. Press the button once to display the time, and then press and hold the button for 3 seconds to select the right hour and minutes. You can even set the date by doing the same thing. Is M4 band good? 5.0 out of 5 starsStay fit in just one touch. I would like to say that this watch is very good as it's so light weight, it not only tells me the time but also tells me about my Health Status. You can check your Heart Rate, Blood Oxygen, Blood Pressure . and we can also change the songs in it. How do I connect my MI band to my phone? How to connect Mi Band 5 to your phone Download and install Xiaomi Mi band 5 App and open it. Click "profile", Add new device and select band. Bring Xiaomi Mi band 5 close to the phone. Tap the button on while Xiaomi Mi band 5 vibrating to pair it. How do I download apps to my smart bracelet? Google Play Store - Android Smartwatch - Download and Install Apps From the Play Store home screen, select a category (e.g., Featured Apps, Featured Games, All Apps, etc.).
